LEVY'S' LATEST

The Lord's right hand is lifted high; the Lord's right hand has done mighty things!

Psalm 118:16

This past November, our Austin team coordinated, designed, and filmed two separate online student discipleship series “Fastbreak” and “Summer Connect” for those who are home or on campus during Spring Break and/or Summer 2020. Rick was in charge of set design. His challenge was designing the set so it could easily switch up between speakers of each series. This was filmed at Texas State University in San Marcos in front of a live student audience. ■

2019 Creative Meet-Up

Asheville, NC

A few years ago, the ministry of Cru went through a fairly significant reorganization. For us, this has had a very positive impact. When we joined staff in 2011, it was difficult for many ministry leaders within Cru to know we were there ready to partner with them for their particular outreaches. It's taken about three years, but now all of the creatives within Cru are finally under one umbrella called “Creative One Media.” For our Austin studio, Rick is the Graphic Design Lead and Julie is continuing to serve as a Senior Graphic Designer. We have an amazing array of film makers, photographers, designers, writers, and videographers. We are now one team even though we are scattered around the U.S. Since then, more ministry leaders within Cru are aware of us and our team has been overwhelmed with work. It's been a joy to serve the Lord in this capacity. ■
