What Are You Typically Afraid Of?

When Peter, a Jesus Film Mission Trips® staff member, met Murad (name changed for security reasons), a 25-year-old Muslim in Southeast Asia, he asked if he liked scary films. Murad said he loved them, so Peter pulled out his tablet with the Jesus Film® app and played *Nightwatch* for his new friend.

“He told me he really enjoyed watching it... and that he liked to watch films that deal with fear. I asked him what people his age in his country are typically afraid of, and he told me the devil. I asked why that was; he said, ‘Because he is powerful and people don’t know how to protect themselves from his power.’ Murad also shared that people in his country often are afraid of where they stand before Allah.”

Through only two questions, Peter was able to share the gospel with Murad. “I shared how I used to have the same fears, but then I put my faith and trust in Jesus. I told Murad how Jesus broke the power of sin and the devil by His death and offers us all salvation from our shame—and confidence in our standing before God.” (Check out Hebrews 2:14.)

Hearing the good news for the first time in his life, Murad told Peter he wanted to place his faith in Jesus. “I was privileged to be a part of his process. I believe the Lord used *Nightwatch* to bring our conversation naturally to a deep point where I had the opportunity to explain

Many people love films a bit on the scary side. *Nightwatch* is a well-done film recently produced by our team in Orlando bringing the subject of fear to the forefront.

the gospel in a way that connected with Murad. ***So, I praise God for using me and for directing you guys to make this film.***”

The Lord used a simple story—told through the powerful medium of film—to ease the language barrier, connect with Murad’s personal fears, and illuminate his need for Jesus. You can see *Nightwatch* on the Jesus Film® app or at jesusfilm.org. Please pray for Murad and others who will come to know Jesus through the short film ministry. Thank you for helping us do this work!
